Other services we provide:

- Day Care Service - patients attend for the day to receive support, advice & information. They have access to various therapies and activities.
- Hospice at Home Service - patients wishing to remain at home will receive support, advice and care from a team of specialist health professionals.
- Physiotherapy - helps to relieve pain and discomfort for patients in the hospice, day hospices and in the community.
- Occupational Therapy - to promote a patient's independence in both personal and domestic tasks.
- Complementary Therapies - a wide variety of therapeutic treatments are available for patients, such as Reiki, aromatherapy and Reflexology.
- Bereavement Support - a dedicated team of staff and volunteers offer help and support to relatives and friends before and after their loved one has passed away.

St Barnabas can arrange for information about our services to be translated into a number of languages and adapt the way we communicate with you depending on your needs.

Please let us know what your particular needs are and we will do our best to help.

Dedicated to providing specialist hospice care across the county

We have a range of information leaflets available - please contact us

Are you suffering from a life threatening illness?

Are you having to meet the demands of extra costs?

Are you aware there are certain benefits you may be entitled to, regardless of your financial situation?

About St Barnabas

We have been operating our services since 1982 caring for over 2,000 people each year and all our services are free.

Who we support

We support adults with life threatening illnesses who have complex symptoms and pain which needs to be controlled by our team of specialist health professionals. Our aim is to help you live your life to the full *making every day count.*

Welfare Service

This service provides a welfare support and advisory service for people living within the community.

The St Barnabas Welfare Department is aware that you may be experiencing financial difficulties.

We will contact you to offer a confidential service to discuss your needs and see whether we are able to help you. This sometimes involves visiting you in your own home.

Eligibility & Referrals

Any adult with a life threatening illness is eligible to receive care from St Barnabas Lincolnshire Hospice.

The focus of this service is with patients who have complex needs and who will benefit from our specialist support.

However, self referrals can be made into this service. The team will then make contact with your general practitioner (GP) and community nurses for further information.
